

DHF-MC/1TC model

**Radio-frequency dryer for water-based glue drying,
on continuous production lines for envelopes and automatic envelope modules**

Composition

- High frequency generator in separate cabinet
- Air cooling of triode with hot air recycling
- Connection of generator and applicator in a coaxial line
- Stray field electrode plant with coplanar electrodes and balanced circuitation
- Control panel with PLC

Technical characteristics

Module maximum width:	520 mm
Output power of the generator:	15 kW
