

EUR

For little dimensions welding (logos, valves, tubes, labels-holder pockets, etc.)

Composition

- High frequency welding press pneumatically operated
- To install on the support bench (excluded from the supply)
- High frequency generator built inside the press frame
- Operated by contemporary push-buttons

Technical characteristics

Press maximum closing force:	200 kg
Press electrodes-holder plate dimension:	150x170 mm
Press working plate dimension:	400x650 mm
Output power of the generator:	1,5 kW
Feeding voltage (other voltages on demand):	400 V (+/- 5%) – 3 PHASES + EARTH - 50 Hz
