

GMA-D - 4 stations

For the production of plasma bags in calendered PVC film

Composition

- High frequency welding press pneumatically operated (or with servo-motor)
- High frequency generator built inside the press frame
- Hot printing unit (optional)
- Turntable with 4 working stations with adjustable rotating speed
- Control panel with PLC and touch screen

Technical Characteristics

Press maximum closing force:	1600 kg
Welding press electrode-holder plate dimension:	450x550 mm
Turntable working stations dimension:	450x550 mm
Output power of the generator:	8 kW / 12 kW
Feeding voltage (on demand other voltages):	400 V (+/- 5%) – 3 PHASES + EARTH - 50 Hz
